Safety and Attention

In order to use your mobile phone safely and efficiently, please read your messages before using:

- 1.Please be careful when you are near chemical plant, gas station, tank farm and other explosive devices. Even if your mobile phone is in standby mode, it will send out RF signals. Therefore, please power off your mobile phone when in the vicinity of the above.

2. Do not use your mobile phone while driving; stop the car if you must use the phone.

3. Do not use your mobile phone in the hospital in order to avoid interference with nearby medical equipment, such as heart pacemakers, hearing aids and etc. You should obey the relevant applicable rules before use.

4. When travelling on an aeroplane, please power off your mobile phone before the plane takes off. Please follow all airline and airport regulations regarding use of mobile phones on the plane.

5. Please ensure your mobile phone and all accessories are out of reach of children.

6. Accessories and battery: Please use the dedicated accessory and battery provided to avoid damaging the phone. Please do not short, tear away, damage or adapt the battery for usage other than intended. If the phone has excessive temperature, discoloration, variance, bulking, weeping and other unusual phenomenon, please stop using the battery immediately and dispose of it properly.

7. Do not charge the phone without the battery. If you wish to remove the battery, please power off the mobile phone first.

8. The phone is NOT waterproof nor water-resistant. Please keep it dry at all times.

9. Avoid using the phone in excessive and extreme

temperatures i.e. too high and too low temperatures.

10. Do not throw, drop or hit the phone as it may destroy the internal and external components of the phone.

11. Authorized Service: Approach only authorized service centers for repairs and servicing.

12. The counting unit of radiation standard is called SAR. In the international norm, the SAR limitation is 2.0 W/Kg. The maximal SAR of this phone is 0.482 W/Kg. This phone meets the stated criterion of GB 21288-2007.
